- SERVICE SPECIALS -

Hello from your friends at D&H RV! We're glad another winter is almost behind us, and we're betting you are too. Now's the time to get ready for spring with performance checks and preventative maintenance to have your unit ready to go for whenever you are. This will also minimize the chances of any issues or failures when using your unit throughout the year. These packages were a big hit with our customers last year, so we're doing it again.

Try out one of our service packages this spring and save money all year long!

Schedule between now and May 31st to take advantage of the early spring discount on either service package!

** Package price covers only labor charges. Any parts required are at additional cost. Price reflects a single A/C and/or furnace

For all service packages:

- We will perform all services listed and described in that package.
- If other problems or issues are identified, we will contact you with an estimate on those issues before completing repairs on those new issues, unless you specify to do otherwise. All parts and labor required to repair new issues outside the service package are not included in the package price(s).
- Package prices and discounted add-on service prices are good from January 1st - May 31st
